

Chamber Vision

“Informing, influencing, incentivising and inspiring our membership to fulfil their business potential through world-class support and services.”

Chamber Values

As a Chamber, we will focus on five key values that will drive our activities and interactions:

-  We are dedicated to listening to our members and understanding and acting upon their needs and priorities
-  We are committed to delivering and implementing quality programmes and services that facilitate growth, access to information and connectivity between members and the wider business community locally and internationally
-  Working with our members and partner organisations, we proactively use our influence to help businesses identify and fill gaps in their knowledge and aspirations
-  We are a driving force behind the local skills agenda, committed to helping businesses to up-skills their workforce and ensuring they have access to the skills they need in the future
-  We demonstrate our strength as the voice for business and use our authority to influence policy and drive economic confidence across the business community.
