

**ACCESSING  
LOCAL  
BUSINESS  
INTELLIGENCE**

## A great start for young people

Young Chamber Membership allows schools and colleges to benefit from the Chamber's connections with local and national businesses and to bridge the gap between the world of education and the world of work by providing access to the business community. Being a member of your local Chamber of Commerce helps your pupils develop the crucial employability and soft skills which employers' value. The Chamber is also able to assist in developing the skills and knowledge of your senior leadership team and governors; providing opportunities to meet and learn from local businesses and gain an understanding of the local labour market.
