

SKILLS BOOTCAMPS

Funded by the Government's Department for Education and are developed by the Cambridgeshire & Peterborough Combined Authority.

What is a Skills Bootcamp?

Skills Bootcamps are flexible training courses and last up to 16 weeks. They give the skills wanted by employers for jobs in Cambridgeshire and Peterborough. The courses help improve people's careers and include an interview with an employer, where suitable.

What is the cost?

These courses are free for learners who are self-employed, unemployed, or looking for a career change.

Employers can get up to 90% off the cost of Skills Bootcamps to upskill their staff.

Skills Bootcamps are developed in partnership with employers, training providers and local government. The courses are funded by the Government's Department for Education. They are developed here by the Cambridgeshire & Peterborough Combined Authority.

Information for Individuals:

Skills Bootcamps are 100% free to individuals and give you the skills you need to get the job you want, quickly and effectively. If you're over 19-years-old in work, self-employed, unemployed, or returning to work after a break, and want to speed up your route into a new job or take a step up with your current employer, a Skills Bootcamp could work for you.

How do they benefit employers?

Skills Bootcamps are a great way to upskill your workforce, supporting growth, better productivity and staff retention.

SMEs can get funding for 90% of the cost of Skills Bootcamps per employee, while larger employers can access funding of 70% per employee. There are also opportunities for employers to design and shape the skills being delivered, with bespoke training designed to fit the needs of your organisation.

Alternatively, you can fill gaps in your workforce by offering an interview to an individual who is undertaking a Skills Bootcamp, bringing new talent into your organisation.

Howden Turbo said:

"Here at Howden Turbo UK, we are proud to be working alongside The College of West Anglia and The Cambridgeshire & Peterborough Combined Authority, to encourage the hearts and minds of people to develop engineering and create a better tomorrow for us all".

Our **diverse, talented**, and **inspiring people** make us Howden!

College of West Anglia said:

Here at the College of West Anglia we are proud to be to be an integral part of this Engineering skills bootcamp.

Working with renowned local employers like Howden Turbo and Baker Perkins ensures that this cohort are gaining the necessary skills to fill the skills gap in Cambridgeshire and future proof the workforce in the area for many years to come.

It's great to see education and industry working in a symbiotic way which directly benefits the local economy.
