Quarterly Economic Survey Q3

Hello,

I wanted to share an opportunity from Cambridgeshire Chamber of Commerce that may be of interest to businesses in our network.

The Chamber is currently collecting responses for its **Q3 Quarterly Economic Survey (QES)** and is looking to hear from as many businesses as possible across the region.

The survey gives businesses the opportunity to share their views on the issues affecting them right now - whether that's rising costs, recruitment and skills, trading conditions, investment, growth or the wider economic outlook.

The more businesses that share their experiences, the stronger the overall picture of the regional economy.

I'd encourage you to take a few minutes to complete the survey and share your perspective.

👉 **Complete the survey here:** <https://www.surveymonkey.com/r/V6GJJC5>

It would also be great if you could share this with other businesses in your network to help the Chamber gather as broad a range of views as possible.

Thank you for taking the time to have your say.

Best wishes,
